

# YOU'VE BEEN BREACHED: NOW WHAT?

.01

## STOP THE BLEEDING

- Assemble a breach response team
- Check your network segmentation
- Update credentials and passwords of users

.02

## GAUGE YOUR LEGAL EXPOSURE

- Verify the types of information compromised
- Health information requires additional considerations

.03

## NOTIFY, NOTIFY, NOTIFY

- Consult with law enforcement
- Designate a person for releasing information
- Consider offering free credit monitoring

.04

## LEARN FROM YOUR MISTAKES

- Review your information systems
- Enroll in a Dark Web Monitoring service
